MEMORANDUM FOR: Deputy Director for Science and Technology

FROM:

[REDACTED]
Director of Training and Education

25X1

SUBJECT:

Directorate of Science and Technology Support
to the Senior Officer Development Course

1. The support of the Directorate of Science and Technology to the successful running of the current Senior Officer Development Course (SODC) has been superb and most appreciated by me personally and by the Office of Training and Education, especially. Your personal talk with the SODC on 13 October was considered by the members of the class and staff to have been of key importance in the achievement of Course objectives. There is no substitute for direct interchanges with deputy directors themselves, and your direct input is appreciated.

2. In October, very positive and well received contributions were also made by every office of DDS&T, including sessions with Director of FBIS, Deputy Director of NPIC, Deputy Director of OSO, and other senior officers from the foregoing offices and OD&E and ORD. Class members were also participants of very impressive visits to [REDACTED] and OTS. That, and the participation of six DS&T careerists as extremely effective class members, combine to show broad and very impressive support to SODC. We appreciate it and send you and the Directorate our warmest thanks. [REDACTED]
